# French and Yankees Make Additional Important Gains on Two Fronts Today

## PUSH FORWARD IN ARGONNE AND CHAMPAGNE REGIONS

Americans Are Reported to be North of Grand Pre Pass and to be Pressing Northward in That Region. In Picardy British and Americans Penetrate Ardeny Forest. North of Argonne Forest French Are Two Miles From Bochiers.

### 7,000 CAPTIVES TAKEN SINCE TUESDAY

(By United Press)

Paris, Oct. 11.—French and American troops have made additional important gains in the Champagne and Argonne regions.

The Americans are reported to be north of the Grand Pre Pass and to be advancing north in that region.

North of the Argonne forest the French are about two miles from Bochiers.

In Picardy, British and American troops have penetrated the Ardeny forest.

#### Take Two Villages

London, Oct. 11.—American troops completed the capture of two villages south of La Cateau yesterday evening, Haig reported today.

#### Reports Capture of Town

Washington, Oct. 11.—Capture of Cote Dame Marie by the American forces on the left bank of the Meuse, the taking of more than 1,000 prisoners and continued advances on the right bank of that river Thursday, was reported by Gen. Pershing today.

#### Hard Fighting in Argonne

With the American First Army, Oct. 11.—Hard fighting is continuing in the Argonne region. The Germans are being pushed completely north of the bend in the Aire river, east of Grand Pre.

The enemy is constantly throwing in fresh divisions to stop the Americans. Latest information indicates the Germans have only about six divisions left, the others having been rested only a short time.

Total prisoners taken since Tuesday have reached 7,000 and are increasing rapidly.

The Americans and French are seizing the last portion of the Kriemhilde line on a wide front from the Meuse west to the Argonne forest.

Additional advances of three miles at some points have closed the western entrance to the Grand Pre pass and given them control of the eastern entrance.

In mopping up the part of the forest between the pass, great difficulty was encountered around Gorney, but after the village fell, the Americans and French pressed forward rapidly.

In two days the Americans have taken more than 4,000 prisoners on the Argonne-Meuse front.

American aircraft batteries shot down 32 German airplanes in the St. Mihiel and Argonne battles.

Practically every important center in the German rear is partly burned or smashed as the result of the biggest air attack in history.

More than 450 planes participated under the direction of the American first army. More than a thousand allied planes were operating in the Argonne and Moselle areas. They

## Shipments of Troops Near Two Million

Chief of Staff Announces Total in or Enroute to Europe is 1,900,000. No time to Act on Idea That War is Over, He Says.

(By United Press.)

Washington, Oct. 11.—America has now reached nearly two million men in troop shipments from her shores, Chief of Staff March announced today.

More than 1,900,000 are now in or enroute to Europe, March said, and shipments are continuing.

"This is no time to act on the idea that the war is over," March warned. "The thing to do is to back the government with men and money until victory is certain."

It was March's appeal for the Fourth Liberty loan.

The enemy's resistance in the La Cateau region is shattered and constant pressure of the allies is keeping the Germans on the go, March said.

In the north the British are 12 miles from Valenciennes and communications with that city are threatened.

#### Allies in Grand Pre

London, Oct. 11.—Allied patrols have entered Grand Pre, according to battle front dispatches today.

The enemy is holding the heights to the northward. The Germans are reported evacuating Chemin Des Dames.

#### Allies Pursue Retreating Huns

With the British Armies, Oct. 11.—British, French and American troops were pressing on after the fleeing Germans today, spreading out their operations and extending the fighting to a wider front. They were driving into the very heart of the German army with great vigor and intensity.

The British were one mile south-

## SUMMONED FOR CONFERENCE

Sovereigns of German Federal States to Consider U. S. Note

Amsterdam, Oct. 11.—Emperor William has summoned the sovereigns of all the German federal states to Berlin for a consultation before answering President Wilson's note, according to a Cologne dispatch. Such a conference is unique in the history of Germany.

## MASTER LIST OF NUMBERS IS HERE

Army Board Begins Assigning Order Numbers And Will Announce When Task Is Finished

INQUIRES WILL DELAY WORK

Competent Orders Received For Voluntary Induction Of Two Registrants Into Navy.

The Rush county army selection board today received the master list of the newly drawn numbers for the September 12 draft and will proceed to assign order numbers to the new registrants. The board asks that no one call and ask for their order number because announcements will be made through the newspaper as soon as all order numbers are determined. This is a big task and inquiries from people who are interested will delay the work. There are more than 17,000 numbers and the board and assistants have to go through this list carefully and select all numbers up to 2248 in order of their sequence, so that it will be possible to assign order numbers to Rush county registrants.

The board today received competent orders for the induction into the navy of Wilbur Gray, rural route 8, Rushville and Clarence Northam, Arlington. These two registrants have passed the physical examination and have been accepted for the navy. They have seven days after competent orders are forwarded in which to be inducted. These are the first Rush county registrants to be voluntarily inducted into the navy since the passage of the new man power law and the closing of the volunteer system. Induction into the marine corps is accomplished by the same procedure as the navy.

The board received word today that Samuel Smith and Ross V. Brown had been rejected at Camp Taylor, Ky., on account of physical unfitness. They entrained with the Rush county quota which left here July 24.

William Bailey of near Glenwood and Charles O. Shaffer, of this city, left this morning at 8:07 over the C. I. & W. for Columbus, Barracks, Ohio. Bailey was inducted by the local board on orders from the local board at Baldwinville, New York, where he registered.

According to the daily report of the local board, 76 more registrants were classified yesterday, bringing the total up to 797 and leaving only 180 cases to be acted upon by the local board. Of those classified yesterday, 36 were sent to the district board, making a total of 252 before the higher board. The local board has placed 352 of those classified in class one.

Herchel Peters, Clyde White and

## TWO HURT WHEN CAR TURNS OVER

Five Men, Including Two Policemen, Chasing Auto Carrying Booze, in Auto Spill

INJURIES ARE NOT SERIOUS

Policemen Havens and Roy Gallamore Rendered Unconscious—Car Skids in Fresh Gravel

While in pursuit of an automobile suspected of being full of booze, Policemen Basil Seward and Frank Havens and three others were thrown out and severely injured last night when their machine skidded in fresh gravel near the Owen L. Carr farm west of the city and turned over.

Policemen Havens and Roy Gallamore were the most seriously hurt of the five men. Both were removed to Dr. Sexton's hospital where examination disclosed that neither had sustained any broken bones or fatal injuries. They were both rendered unconscious. Policeman Havens complained of pains in the chest after he gained consciousness.

Policeman Seward escaped with scarcely a scratch and William Kelso, who was hauling the crowd in his machine, was not severely hurt although his face was cut by glass when the windshield was smashed up. Seth Moore, the other occupant of the car, suffered a slight flesh wound on the head.

Persons who saw the automobile last night after the accident marveled at the fact that any of the five men escaped without being fatally injured. The machine apparently turned completely over and was headed in the opposite direction. The top was demolished and the steering wheel was bent down so that it seemed impossible for the driver to escape from the wreckage.

Policeman Seward saw the machine go through Rushville last night and his suspicions were aroused because he had seen the same car going east day before yesterday and was watching for it on the return trip. It was a light automobile with a box on behind, apparently for stowing away a "cargo" of liquor.

Policeman Seward attempted to get Deputy Sheriff Spivey and his machine to follow the supposed law violators, but failing in this, he asked Kelso to take him and Policemen Havens and overhauled the car. Gallamore and Moore were in Kelso's machine and went along.

The police says they had about overhauled the suspicious automobile when a load of gravel which had not been scattered, suddenly loomed up ahead in the road. Kelso's machine was going too fast to avoid hitting the gravel.

The traffic in booze through here from the east is increasing, according to the police, who say that an attempt to go through Rushville with an automobile load of intoxicating liquor night before last was frustrated. Deputy Sheriff Spivey and Policeman Frank Havens were waiting at the eastern outskirts of the city for the car, but the drivers evidently suspected something because when they saw the two officials, they turned around and went back east. The police gave chase but lost all trace of the machine. The police had seen the suspicious automobile go

## LIEUT. COLEMAN OVERSEAS

Former Rushville Physician Arrives Safely, It is Announced

Lieutenant W. S. Coleman has arrived safely overseas according to word received here by his mother, Mrs. Emily Coleman. Lieut. Coleman left here early in August for medical officers training at Camp Greenleaf, Georgia, and was only in training about a month before arriving at an eastern port for embarkation.

## ONLY A FEW NEW CASES REPORTED

Health Officers Pronounce Influenza Epidemic as Satisfactory as it Ever Has Been

PHYSICIANS ARE VERY BUSY

County Health Officer Not in Receipt of Order to Put Quarantine Sign on Homes

The situation as regards the Spanish influenza epidemic here was declared today by health officers to be as satisfactory as it has ever been since the disease first appeared here. Although a few new cases were reported in Rushville today, they were all patients who have had the disease for some time and could not be counted as new cases.

About a half dozen new cases were reported from other points in the county to Dr. E. I. Wooden, making a total of 30. It is believed that there are more cases in the county outside of Rushville than have been reported, but that the physicians are so busy on account of the great prevalence of the disease and the scarcity of doctors, that they have not taken the time away from their patients to make reports.

Up until noon today, Dr. Wooden had not received the official text of the orders issued Wednesday afternoon by the state board of health placing a ban on all public meetings in every part of the state. Neither had he received an order which the state board issued yesterday afternoon to the effect that influenza quarantine signs should be placed on all residences where cases of the disease are reported by physicians. The orders do not contemplate establishment of an absolute quarantine on the persons in the house but will be merely a precaution to protect other persons who may be unaware of the present of the malady in the house.

It matters little whether the official text of Wednesday's order is received here because public meetings had been under ban in the county since Monday. It is expected, however,

## GASOLINE BAN MAY BE LIFTED BY NEXT SUNDAY

Washington, Oct. 11.—The ban on the use of gasoline in motor-driven vehicles on Sunday, east of the Mississippi, except in cases of emergency, may be lifted after October 13, if sufficient gasoline is in stock by that time, according to an announcement of the United States fuel administration today.

## COUNTY MAY SPEED OVER TOP IN A DAY

With \$75,000 to be Subscribed, Liberty Loan Officials Are Anxious to Close Tomorrow

BANKS TO BE CLOSED ALL DAY

While Free From Other Cares, Bankers Will Concentrate on the Sale of Liberty Bonds

REPORT TODAY IS \$1,025,000

Although County is Near Quota, it is Urged There be No Slackening of Efforts

With the county within \$75,000 of its Fourth Liberty Loan goal today, there were prospects of sending an "over-the-top" message to state headquarters tomorrow because Saturday will be spent by bankers in an earnest endeavor to pull Rush county through to a glorious finish.

There was talk in some quarters yesterday of Rushville banks remaining open Saturday, which is a legal holiday, because of the fear expressed by some that the closing of the banks might slow down the campaign, but it has been decided the best policy to close according to custom. The bankers will then be free from their regular business to devote all their energies to the sale of Liberty Bonds.

Clearing house reports from the twelve banks in the county today showed subscriptions totaling \$1,025,000, a substantial gain over yesterday when the million dollar mark was in sight. The last \$75,000 will be the hardest to sell and county loan officials are urging that there be no slackening of efforts on the part of anyone until the county is reported officially as having reached its quota.

Liberty loan sales chairman in Indiana counties included in the seventh federal reserve district today received the following telegram from Will H. Wade, state director:

A six billion dollar Liberty Loan cannot be sold unless individuals, firms and corporations use bank credit to pay their subscriptions. We cannot possibly pay this vast sum in cash. All classes of people should and must lend their credit to the Government at his time by anticipating future income and paying when those funds are available. The man without capital has bought Liberty Loan Bonds generously on the payment plans. Other classes have bought with available cash but unless the farmer the manufacturer and the wealthy make additional purchases promptly by borrowing money of the banks or buying promptly on some of the payment plans the Loan will fail. The situation is critical and your solicitors should pointedly impress upon all the necessity of buying with more than their cash. They should buy more by borrowing at the bank or buying on some payment plan. The farmer especially will have large sums of money available in the next few months from the sale of his farm products. The Government should have the use of this money immediately.

## LAXATIVE for Aged People

**THE BANE** of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

**Chamberlain's Tablets**

## Closing-Out Sale!

I will sell at public auction at my farm, 2 miles west of Carthage, 4 miles south of Charlottesville, 1 mile east of Walnut Ridge church,

**COMMENCING AT 10 O'CLOCK A. M. ON  
THURSDAY, OCTOBER 17, 1918**  
the following described property to-wit:

### 30 Head of Registered Big Type Poland Hogs

Queen Sue No. 693388 out of Long Chief and Queen Hadley, and three of her yearling daughters and a son out of Big Smooth Bone. 25 summer gilts and boars out of these sows and Big Bond—a fine lot of pigs. Queen Sue's Giant, a yearling boar, weighing over 500 pounds, is a fine specimen of the type, would make a splendid herd boar. Also 9 feeders weighing 100 pounds. All these hogs are immuned from cholera.

### 25 Head of Cattle 25

5 head of extra good Jersey cows from 2 to 5 years old; 1 roan Shorthorn cow, 5 years old, a good one; 4 Shorthorn and Angus cows with calves by side; 2 heifers due to calve soon; 8 yearling heifers and steers; 2 full blood Angus bull calves ready for service, and two weanling heifer calves.

### 20 Head of Horses 20

10 mares ranging in ages from one to nine years old; 8 geldings ranging in age from 1 to 4 years old and two suckling colts. Most of these horses are Grade Shire, Percheron and Belgians and are the kind to buy to make money.

### Farming Implements and Machinery

Two wagons, almost new; flat bed, extra box bed; rubber tire closed buggy, good as new; good break cart, binder, mower, hay loader, sulky rake, fender, plows, harrows, stalk cutter, roller, 5 H. P. portable gasoline engine, Scientific feed grinder for ten or twelve H. P., good as new; Ross cutting box, 12 inch knife and 16 foot elevator; canvas cover top, fits common wagon box, used for camping, good as new. Several sets of good wagon and buggy harness, and a lot of tools and other articles not mentioned.

**ONE STEEL ALIGATOR HAY PRESS—Horse Power. Good as New.**

**ONE 12-25 HUBER GASOLINE TRACTOR** with three 14 inch bottom.

**P. & O. GANG PLOW—Has plowed about 150 acres.**

**HAY IN MOW AND OATS IN BIN.**

**HOUSEHOLD GOODS—One nearly new Favorite base burner, South Bend Malleable steel range, extra good piano, secretary and book case, cream separator, extension table. Singer sewing machine and other articles.**

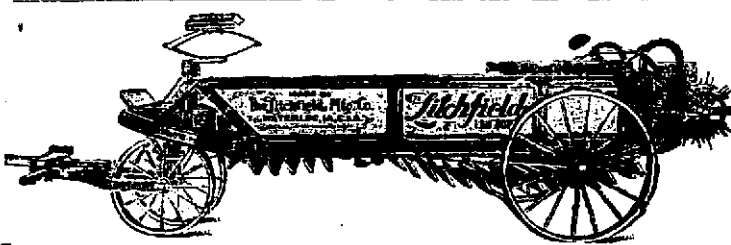

**TERMS OF SALE—All sums of \$10 and under, cash; over that amount a credit of ten months will be given. Purchaser giving good bankable note with 6% interest from date. All goods to be settled for before being removed from the premises.**

Dinner by Ladies of Carthage Christian Church.

**W. F. PITTS**

**BUTTON & MILLER, Auctioneers.**

**M. F. LOVETT, Clerk.**

### COMMON SPREADER SENSE

We are wondering if the readers of this paper realize that intelligent, reasonable common sense can be talked as well through the columns of a newspaper as in a personal interview. We want to appeal to your judgment and your intelligent "horse sense."

We want to emphasize the idea that the manufacturers of the Rushville Special spreader are not simply embodying one or two talking points but include more than three times as many worth while exclusive features in this machine as can be found in any other spreader now manufactured.

You may think we are over enthusiastic with regard to this manure spreader, but we are ready to prove that EVERY STATEMENT is backed by results that we can demonstrate very quickly if given a chance.

With very little explaining, most men readily understand why the long and short teeth in the Bull Dog Reater are draft reducers. Only a brief examination is necessary to understand why the expansion chambers in our NO CHOKE BOX are of great advantage in distribution. The Litchfield SELF CLEANING Conveyor used on this spreader is the only successful endless conveyor on the market.

The SELF OILING JOURNAL BEARINGS used on this spreader are years ahead of the bearings used on other machines. They are built like a freight car bearing and will stand more abuse than any other device.

Space does not permit us to mention more of these features, but if you will call on us we feel certain we can convince you that the sensible thing for you to do is to buy a Rushville Special manure spreader. We hope to have the opportunity of explaining this machine to you.

RUSHVILLE, INDIANA

## THREE SHIPS SUNK BY HUN U-BOATS

Hundreds of Lives Lost When  
Steamer Leinster is Sent Down  
in The Irish Sea

### JAPANESE SHIP TORPEDOED

Scores of American Sailors and Soldiers Lost—Ticonderoga is Shelled by U-Boat

London, Oct. 11.—The sinking of the Japanese steamship Hiranu Maru and the Dublin mail boat Leinster mark incidents of a new submarine campaign which the Germans started about ten days ago, according to the Mail. It adds that at that time renewed submarine activity became evident in various directions, notably along the routes followed by steamers carrying American troops.

It is reported that the new boats are much larger and more heavily armed than any which have been sent out previously by Germany.

Four hundred lives—the toll may be increased to 600—when the mail steamer Leinster was torpedoed and sunk in the Irish Sea yesterday morning. Several survivors have been landed at Kingston. The steamer floundered so soon after being hit that there was no chance to launch life boats, according to a dispatch from Dublin. Two torpedoes were fired at the steamer. One struck near the bow. The steamer sank within fifteen minutes.

The passengers, including many women and some children numbered 650 and the boat carried a crew of seventy.

It is feared that at least 400 lives were lost by the sinking of the Japanese steamship Hiranu Maru. She was outward bound for Japan and carried about 200 passengers. The vessel was torpedoed and sunk by a German submarine early on Friday morning when about 300 miles south of Ireland.

The survivors who were picked up by the American torpedo destroyer Sterret have been brought here. They declare that the torpedo struck the steamer in the forward engine room.

### American Steamship Sunk

An Atlantic Port, Oct. 11.—According to twenty survivors brought here by a freighter, scores of American sailors and soldiers from the steamship Ticonderoga were killed or wounded by shrapnel after the torpedoing of the vessel, 1,700 miles off the Atlantic coast.

Two hundred and fifty men were aboard the Ticonderoga, an American cargo steamship of 5,130 tons, and all but the twenty who arrived here today are believed to have perished. The survivors got away in the only boat which was not demolished by the shell fire from the submarine, they said. Seventeen of the men who reached port were members of a detachment of soldiers detailed to care for horses which were being transported.

The Ticonderoga was attacked, presumably on October 2 when she fell behind her convoy because of engine trouble.

## WOMEN TO WRITE LETTERS

Organization to be Formed to Provide Cheer For Soldiers

An organization of business women will be perfected in the near future for the purpose of providing cheer in the form of letters for soldiers in the American Expeditionary forces. It is proposed to complete the organization with a committee for gathering news, a committee on finance and a committee to write the letters. The boosters of the organization expect to enlist in its support any women who are very busy during the day but who can give some time to a project of this character.

### TEACHERS' MEETING OFF

Indianapolis, Ind., Oct. 11.—Directors of the Indiana State Teachers' Association decided last night that the annual session originally scheduled for Oct. 30 and 31 and Nov. 1 and 2 will be deferred this year until Nov. 28, 29 and 30 because of the influenza epidemic. The meetings will be held in Indianapolis on the latter date.

## HOG PRICES ARE FIVE CENTS HIGHER TODAY

### MORE CASES AT RICHMOND

Richmond, Ind., Oct. 11.—Forty-two cases of Spanish influenza in this city were reported to the health authorities yesterday. All houses harboring the disease have been quarantined.

Bell metal is made of seventy-seven parts of copper and twenty-three of tin.

### Tested and Proven

There is a Heap of Solace in Being  
Able to Depend Upon a Well-  
Earned Reputation

For months Rushville readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

A. M. Younger, retired farmer, 828 W. Tenth St., Rushville, says: "I have been using Doan's Kidney Pills off and on for about ten years and they have done me good. When a man gets as old as I, he is apt to have more or less trouble with his kidneys. At times I have had a dull ache across the small of my back and my back has been weak and lame. Then the kidney secretions have been too frequent in passage, causing me to get up at night. Every time I have been that way, I have bought a box of Doan's Kidney Pills at Johnson's Drug Store and they have never failed to relieve me in a short time."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Younger had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—(Adv.)

## FARMERS!

We Pay a Premium for Good Heavy  
Milling Wheat.

See us before you sell. Phone 1149

—Miss Belle Gregg was a visitor to Indianapolis today.

—Miss Sue Gregg went to Indianapolis, this morning to spend the day.

—Miss Edith Buchanan of Cleveland, Ohio and J. M. Perkins of Rising Sun, who have been the guests of Mr. and Mrs. Fred Caldwell for the past few days, have returned to their home.

—Miss Ruth Ashworth of Connersville, is the guest of Mrs. Neff Ashworth for a few days.

—Mrs. Mary A. Flint has returned to her home after being called to Versailles, Ind., by the death of her grandson.

—Miss Marian Sparks of Greencastle, Ind., will spend several days here as the guest of her parents, Dr. and Mrs. Frank Sparks.

—Miss Gladys Rebout came home this afternoon from Greencastle, where she is in school, because of the closing of the university.

—Mr. and Mrs. John Boyd, Miss Ruby Petry and Mr. and Mrs. Charles Hinkle, motored yesterday to the aviation fields near Dayton, O.

—Miss Esther Anderson, who is attending school at Greencastle, Ind., came home last evening on account of the influenza epidemic.

—Miss Millie Draper, living north of Carthage, returned to her home this morning after an extended visit with her sister, Mrs. Olive Haywood.

—Mrs. J. F. Lankford and daughter Clara Bernice, of Norfolk, Virginia, has arrived in this city and will be the guests of Miss Clara Martin.

—Miss Ramona Ewbank, who is attending school at DuPauw university, will arrive home this afternoon to be the guest of her parents, Mr. and Mrs. F. J. Ewbank.

—Eber Chastain of Indianapolis spent the day here on business.

—Charles Cooper of Cincinnati was a business visitor in this city today.

—Mrs. J. R. Carmichael has returned from St. Louis, Mo., where she was called several days by the illness of her daughter-in-law, Mrs. Warne Carmichael.

—Miss Katherine Wooden, who is attending school at Indiana University, came home last evening to be the guest of her parents, Dr. and Mrs. E. I. Wooden in North Morgan street.

—Mrs. John Hiner, Mrs. Edith Mulbarger, Mrs. Margaret Morton and her son Earl left yesterday for Cleveland, Ohio, where they will be the guests of Mr. and Mrs. Edward Stumpf and son.

—Mrs. Maurice Boren of this city, has returned to her home after undergoing an operation in an Indianapolis hospital, three weeks ago.

—Miss Maud Hunt, who is a nurse at Sexton's hospital, will leave for Indianapolis tonight where she has been accepted as a nurse.

## News of Colored Citizens

A beautiful wedding was solemnized yesterday at the home of Mr. and Mrs. H. Bundrant, when Miss Verene Bailey, daughter of Mr. and Mrs. Aaron Bailey, and Chester Underwood, both of Newcastle, were quietly married, with the Rev. E. W. S. Hammond officiating. The bride wore a blue messaline dress with shoes, hat and gloves to match. Among the guests were: Miss Margaret Evans of Franklin, Ind., Miss Emma Hammond, Otto Bailey of Newcastle, Luther Bundrant and Prof. and Mrs. Bean. Mr. Underwood is employed at a garage in Newcastle.

F. Downey of North Vernon spent yesterday here with Prof. and Mrs. Bean while enroute to Indianapolis.

## TWO HURT WHEN CAR TURNS OVER

Continued from Page One

east the morning of the same day and were awaiting its return.

Sheriff Jones and Deputy Spivey were on a still hunt for other liquor law violators, again last night, but one machine which they suspected of being filled with liquor eluded them. The sheriff and his deputy were lying in wait near Smalley's barn in East Second street for the return of a big seven-passenger car, which they saw go east yesterday morning. About 2 a. m. the machine came through at a high rate of speed and disregarded orders of the authorities to stop. Several shots were fired at the fleeing automobile, but apparently none took effect. The officers pursued the alleged liquor law violators, who were going so fast they could not make the turn from Second street into Buena Vista avenue, but went on to the end of Second street. There they turned to the left, went over to the Shelbyville pike and escaped.

The sheriff and his deputy returned to the same place to watch for other violators, and did stop another

ever, that the copy of Thursday's orders will arrive by tomorrow and that quarantine signs will be placed on homes where there are cases of the disease.

Accompanying the official order Dr. Hurty addressed the following letter to county health officers explaining that public funerals may not be held and that public library reading rooms must be closed:

"This pandemic of influenza is very serious.

"Reports show Indiana is grievously smitten. We have already had several thousand cases and several hundred deaths.

"If there are no cases in your district so much the better. Lock the door before the horse is stolen. Don't wait for cases and deaths, for that is foolish.

The infection is transmitted by oral and nasal secretions. The spitter, cougher and sneezer are dangerous.

"Violation of order punished by fine of \$5 to \$50. See health law.

"Public gatherings means all meetings open to the public. The term does not include essential war activities as Red Cross working units, and conferences of Liberty Loan workers, etc. Public Library reading rooms must be closed. Books may be loaned as usual. Public stock sales may be permitted if held in the open and without dinners."

**Every Little Pit Helps**

A peach pit splashed into the river. The man who threw it in, faced an indignant wife. "Don't you know the government wants every peach pit to use as carbon materials for army gas masks?"

"What's one pit?" he asked. "The plea was aimed at the hotel men and grocers and others who have bushels of peach pits, prune stones and nut shells to offer. One little pit! Why, it takes hundreds to make carbon enough for one mask."

Two hundred men, like this one, unconsciously working together will throw away at least half a dozen respirators every week. Carbon is essential for gas masks, and the better the carbon the more efficient the mask. Chemists have ruled that peach, prune, apricot, cherry, olive date, and plum pits as well as butternut, walnut, hickory and Brazil nut shells furnish the best carbon for respirators. Is any real American going to throw into the river something which his country needs badly?

It does not take long for one family to save enough pits or shells for one mask—it takes seven pounds of nut shells or two hundred pits. The Red Cross in every community is the agency designated by the government

Shouting down with the Germans.

And when the war is over we'll greet  
you with a smile,  
Shouting down with the Germans.

D. M. PRESSNALL, Arlington.

to ship the collections to the chemical warfare section.

All pits must be thoroughly dried in the oven or in the sun before they are turned over to the Red Cross.

The various materials desired may be mixed together indiscriminately in the collection but pits or shells not included in the official list should be saved.

Just as the cup of flour saved here and there by the housewife amounted to millions of bushels to tide the allies through the critical wheat shortage just passed, the pit from one peach or prune will join with millions of others to furnish the carbon needed in our army gas masks. Save every pit and every shell listed by the government. Do not let one be thrown away. Remember that every little pit helps to save a soldier's life.

**Without Bloodshed**

During the American operations against Metz a German regiment underwent an almost unique experience. It was flanked right and left simultaneously, and though it might have continued to fight it did just as practical a thing in surrendering. The Americans could have massacred it or starved it without losing a man.

Its colonel called the roll, and every man answered. He then suggested to his captors that as his command was so distressingly complete it might as well preserve its organization, and with its officers and non-coms., it marched, disarmed and under escort, to the detention camp. The only thing lacking was a brass band.

The coup was accomplished by Yankee quickness. The quickness was made possible by flawless transportation and facilities and equipment. These things make for bloodless victory. And they cost money. Fourth loan appeal is stupendous. Is not a case of "Have you bought a bond?" but "How many have you bought?"

But money means superior equipment and bloodless triumphs. Fighting with safety—so far as it is possible—improves with organization. Death and casualty rates have shrunk considerably at the front. We have seen 8 percent go to 3 percent.

Money buys gas-masks, life-saving appliances and hospital equipment. It's our money or the lives of our boys.

**Bargain Prices.**

Even at this date St. Mihiel is little more than a name to most of us.

We know that General Pershing won a victory there, and that the operations were carried out almost entirely by Americans. Perhaps we know that 152 square miles were restored in France, and that the forces employed were incredibly few in proportion of the extent of the gains.

But we are without the intimate knowledge of the spectator. We have not been given what the movie directors call a "close up". We cannot see 100,000 maps being distributed to the selected troops, with corrections recorded the day before the attack. We cannot see 30,000 photographs of the terrain being prepared and handed round as part of the final instructions. Or 5,000 miles of telephone wire being laid in the silent, and moved forward with their

motor truck switch-boards and exchanges during the advance. Or the observers locating every enemy trench and notifying their artillery by phone—or the 1,500,000 shells that screamed an answer to the message.

Seventy-two villages and 15,188 prisoners were taken, 111 guns, 42 trenchmortars, 200 machine guns, 30 box-car, 41 locomotives, 40 wagons, and vast supplies of ammunition.

The results were magnificent because the preparations were magnificent. Pershing's plans worked like formulae on a blackboard—like the mechanism of a faultless timepiece. The eternally quoted Napoleon said (among fifty thousand other aphorisms credited to him) "A battle is a series of blunders, and the general wins who makes the fewest"—good enough doctrine for Napoleon's day, but not for the era of the cash register and mechanical calculator. Pershing's lines moved like clock-work because his equipment was nearly perfect; hence the surprisingly low casualty list. The dollars that bought the maps, telephone wires and other supplies saved American lives.

The Fourth Liberty Loan is here. The blood of our boys is worth more than your roll and mine.

One subject of discussion will be cut off. It will be no use arguing whether beer is an innocent or harmful drink when it is an unattainable one.

It will not be long before we realize how dry a bone actually is.

A question which time only will decide whether France will become Americanized or whether our American boys will become Frenchified.

The Chicago and North-Western railroad is said to be abolishing its parlor cars. If the other railroads follow its example, how are we to distinguish the aristocracy of America? The world is certainly being made safe for democracy at a great rate.

**BIG INCREASE IN  
BANK RESOURCES****Due To Withdrawal Of Savings  
From Banks And Investing In Liberty Bonds.****THE FARMERS ARE PRAISED**

Banks and trust companies in Indiana show in a report completed by Charles W. Camp, head of the state bank department in the auditor of the State's office, that their resources at the time of the last bank call, August 31, were \$24,714,185.76 more than at the time of the call, June 29. The deposits were \$24,102,665.44 more, so that the increased resources are due almost entirely to the increased deposits.

Mr. Camp points out, however, that at the time of the June call the taxpaying time had passed shortly before, the Liberty loan campaign had just closed and it was semi-annual dividend paying time for many bankers. State and private banks and trust companies all show gains in resources over June, but the savings banks show a loss. This, Mr. Camp believes, is due to the withdrawal of savings from the banks and their investment in Liberty bonds. Much of this money came into the banks from farmers who realized it in the sale of their crops, and it remains largely to their credit and available for the purchase of Liberty bonds.

The average cash reserve of the banks and trust companies at the time of the August call, was 33.6 per cent, while it was less than 2 per cent at the time of the June call.

# To the Central Powers

President Wilson has replied with his note. Have you replied with your Bond subscription? If not, back him at once with a liberal purchase. Remember that the Fourth Loan is going slowly all over the Nation. Are you to blame?

**PRIV. JOHN HECKMAN  
IS WOUNDED IN FRANCE****Wounds Not Serious Because Letter  
Written Ten Days Afterwards  
by Him Has Arrived****ENTERED SERVICE LAST APRIL**

John Heckman, son of Mr. and Mrs. Henry G. Heckman living northwest of Rushville a short distance, was wounded in France, August 22, according to a message from the war department which has been received here.

His wounds are not serious however, because his parents are in receipt of a letter from him dated September 2, ten days after he was wounded, in which he did not mention being in the hospital and said that his relatives should not worry about him because he was getting along all right. This is assurance, relatives believe, that he was not badly wounded and will soon be able to return to the front.

Private Heckman is with Company K, 47th Infantry, Fourth Division. He entered the service at Camp Taylor, Ky., last April and after a short period of training, landed in France June 10. Private Heckman's parents have received a number of letters from him and all have been cheerful.

**BILL EXTENDS TIME LAW**

Washington, Oct. 11.—The daylight saving law would remain in effect until rescinded by Congress under a bill passed today by the Senate. The measure, which was endorsed by Chairman Barnum of the war industries board, in the interest of fuel economy now goes to the House. Under the present law the clocks would be turned back an hour on Oct. 27.

### Text of The Order Putting Ban on All Public Meetings

The official text of the state health board order, placing all public meetings in Indiana under ban, which was to be forwarded to all county health officers and will be received here by Dr. E. L. Wooden, is as follows:

Whereas, Epidemic influenza, a dangerous, communicable disease, is now epidemic in Indiana causing deaths daily, and

Whereas, The United States public health authorities have emphatically advised that all public gatherings be prohibited and other reasonable preventive measures be adopted, therefore it is ordered:

(A) That all public gatherings are prohibited.

(B) That spitting on sidewalks, on walls and floors of public buildings and public conveyances is prohibited.

(C) That all persons shall hold a cloth or paper handkerchief over their faces when coughing or sneezing.

(D) That all street cars, interurban cars and public conveyances shall have all ventilators open regardless of outside temperature, and whenever the outside temperature is 50 degrees or above all windows shall be open except when storming. Railway passenger cars shall have all ventilators open regardless of outside temperature. All street cars, interurban cars and railway passenger cars shall be thoroughly cleaned after each service trip and before being put in service again.

(E) That physicians shall promptly report all cases of epidemic influenza coming under their care to the health officer having jurisdiction.

(F) That city and town health officers shall report to their county health commissioners, who shall make a daily report to the state board of health.

This order supersedes all previous orders and instructions and shall be in force and effect until 12 o'clock midnight Oct. 20.

Supplementing the order, Dr. J. N. Hurry, secretary of the board, issued a letter giving the penalty for violating the order, a definition of

"public gathering" and recommendation for outdoor play for children. It reads:

"The order has the force of law. Penalty for violation, not less than \$5 and not more than \$50 for each offense.

"Public gatherings" shall be interpreted to mean all meetings open to the public. The term does not include essential war activities, as Red Cross working units and conferences of Liberty Loan workers, etc.

"Health officers may permit stock sale, when same are held in the open air, without indoor dinners. They also may permit juvenile baseball, football, tennis, etc. The state board of health encourages outdoor sport and outdoor play of children."

### Forty Registrants Called For Examination Next Week

Forty registrants of the September 12 class, who are definitely in class one, have been called for physical examination next Monday and Tuesday, twenty to appear each day, as follows:

### MRS. BERTHA SMITH ASKS DIVORCE

Files Suit in Circuit Court Against Walter S. Smith, Alleging Cruel and Inhuman Treatment

#### SHE IS A GRADUATE NURSE

Alleging cruel and inhuman treatment, Mrs. Bertha Smith of Manilla, has filed suit for divorce against Walter S. Smith in the circuit court. They were married Oct. 17, 1897, according to the complaint, and separated February 14, 1915.

Mrs. Smith charges that her husband was an incessant and constant user of intoxicating liquor and he frequently came home in an intoxicated condition and called her vile and infamous names. When in this condition, he often struck her. Mrs. Smith says that her husband did not buy her clothing and that she worked for other people on the farm where they were living to earn money to cloth herself.

Four children were born to Mr. and Mrs. Smith, all of whom are in the custody of Mr. Smith. On account of her occupation as a graduate nurse, the plaintiff does not ask for the custody of the children.

#### INJURED BADLY BY SHOTGUN

Marion, Ind., Oct. 11.—Elza Conner, 13 years old, while hunting with a shotgun today, was terribly injured when the gun was accidentally discharged. The load of shot mutilated his right leg from the knee to the thigh so badly that amputation at the thigh probably will be necessary.

## CUBA SENDS BIG WAR OFFERING

Gifts in Shape of Consignment of 240,000 Cigarettes and 3,500 Packs of Tobacco

#### FOR U. S. SOLDIERS IN FRANCE

In Addition to Declaring War on Germany, Cuba Assists in Many Ways Fighting Huns

Washington, Oct. 11.—Cuba's latest war offering took the shape of a consignment of 240,000 cigarettes and 3,500 packages of smoking tobacco for distribution to the American soldiers in France. In transmitting the gift, the Cuban minister explained that it was sent by the Cuban people in recognition of the work of the American army and as a token of the sincere friendship between Cuba and the United States.

This is not the most important contribution Cuba has made. While larger nations of this hemisphere have been doing their best to defeat the Prussian dream of world conquest, Cuba has not been idle. Her declaration of war came on the same day as our own. Since then, Cuba has furnished us sugar and has sent us ships. She has made outright presents of money and has established an active Cuban Red Cross organization headed by Senora de Menocal, wife of the president of the republic. She has passed a selective service law and has issued \$30,000,000 worth of government bonds. American officers have been invited to the island to train her troops. There has been constant co-operation between Cuba and the food authorities of the United States. Everything within her power to do, Cuba has done.

In his war message, President Menocal sounded the keynote of Cuban allegiance. He said: "Cuba cannot remain aloof from the stand nobly and courageously taken by the United States, to whom we are bound by sacred ties of gratitude and fraternity."

#### SALE OF GANTNER BUSINESS BLOCK

Saturday afternoon, Oct. 12 at 2 o'clock at the premises, the Gantner block (formerly Cox's Shoe Store) will be sold at public sale to highest bidder. H. EDWARD GANTNER, Commissioner.

DOUGLAS MORRIS, Atty. 17912

#### DON'T BURN LEAVES

Complaint has been made that the odor of burning leaves is annoying and injurious to persons sick with influenza and other kindred diseases and for that reason the operation of the ordinance permitting and controlling the burning of leaves is suspended until further order and the disappearance of the emergency requiring this action. A. B. Irvin, Mayor. 17912

#### NOTICE TO CITY RESIDENTS

Please do not rake the leaves from your premises into brick street for city to gather up. W. H. HAVENS, Street Commissioner. 17912

## SPANISH INFLUENZA—WHAT IT IS AND HOW IT SHOULD BE TREATED

Nothing New—Simply The Old Grip, or la Grippe That Was Epidemic in 1889-90. Only Then It Came From Russia by Way of France and This Time by Way of Spain.

Go To Bed and Stay Quiet—Take a Laxative—Eat Plenty of Nourishing Food—Keep up Your Strength—Nature Is The Only "Cure."

#### ALWAYS CALL A DOCTOR

#### NO OCCASION FOR PANIC

Spanish influenza, which appeared in Spain in May, has all the appearance of grip or la grippe, which has swept over the world in numerous epidemics—as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

There is no occasion for panic—influenza itself has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally, patients in a run-down condition—those who don't go to bed soon enough, or those who get up too early.

#### THE SYMPTOMS

Grippe, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

#### THE TREATMENT

Go to bed at the first symptoms, not only for your own sake but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, aspirin or Dovers' Powder, etc., may be administered by the physician's directions to relieve the aching. But there is no cure or specific for influenza—the disease must run its course. Nature herself will throw off the attack if only you keep up your strength. The chief danger lies in the complications which may arise. Influenza so weakens the bodily resistance that there is danger of pneumonia or bronchitis developing, and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days, or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days

or more, according to the severity of the attack.

#### EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grippe germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the parts until the skin is red, spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

#### HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food. Above all, keep free from colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea kettle. Fill half full of boiling water, put in half teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors.

VapoRub is comparatively new in New York State and New England and a few western states where it is just now being introduced, but in other sections of the country it is the standard home remedy in more than a million homes for all forms of cold troubles. Over six million jars were sold last year. It is particularly recommended for children's croup or colds, since it is externally applied and therefore can be used as freely as desired without the slightest harmful effects. VapoRub can be had in three sizes at all druggists.

## Malleable Range South Bend

Is the only range made using Keystone Copper Bearing Aluminum Fused Metal as a stove lining.

Their flues will not RUST, CORRODE or BURN OUT during a life-time of range service. Call and see the SOUTH BEND MALLEABLE and get our prices. Our amount of ranges is limited. The War Industries has curtailed the production of stoves for the last four months of 1918 to 50 per cent of the production of the last 4 months of 1917—the 50 per cent includes government orders.

WANT ADS BRING RESULTS

## Nurse Survey Is Begun By The Red Cross

Campaign Will be Conducted Under Direction of Mrs. A. L. Stewart With Same Organization as That Which Was Used for Enrolling Nurses. Women Are Asked to Sign Questionnaires to Show Their Ability to Fit in Any One of Seven Classes.

Mrs. A. L. Stewart has taken charge of the nurses enrollment campaign in this county which is being conducted under the auspices of the Red Cross. Mrs. Stewart says that it is the patriotic duty of at least one hundred women to offer their services in one of seven capacities which are offered by the Red Cross.

Questionnaires had been provided and it is urged that women who feel that they can possibly qualify in any one of the seven classes of nursing personnel to be listed are urged to answer the questions so it may be determined in which class they belong.

The need of nurses of all kind is imperative, especially those who can take the place of registered nurses and release them for overseas service, are urged to offer their services. The fact that 25,000 nurses are wanted overseas by January 1, which means that they must be provided at the rate of 1,000 a week, discloses the necessity of a quick response from the women all over the country. The United States has fallen far below its overseas quota because only 2,600 enlisted for services in France during July and 2,900 during August.

The machinery of the county council of defense which conducted before the nurse enrollment campaign under the direction of Mrs. Stewart, will be utilized to carry out this undertaking. There is a representative in each township who will urge the women of her community to respond quickly to the appeal for nurses.

"Owing to the rapid spread of the present epidemic of influenza the safety of this country demands that all patriotic available nurses, nurses' aids or anyone with experience in nursing, place themselves at once at the disposal of the government," says a message from Surgeon General Blue of the U. S. health service.

"In order that the nursing resources of the country may be mobilized to assist in the control of the influenza epidemic, practicing physicians in general and specialists in medicine in particular are urgently requested to release from attendance on chronic cases, and all other cases which are not critically ill, every nurse working under their direction

## Be Sure What You Buy Is Correct

It's so easy to compromise with yourself when an inferior garment is shown you and say, "Well, I suppose it isn't as good as what I have been getting, but then, these days conditions have changed."

Conditions have changed—have changed so much that it is your duty to buy only the garments you can actually use. But there is no reason for accepting inferior quality, careless workmanship and indifferent style.

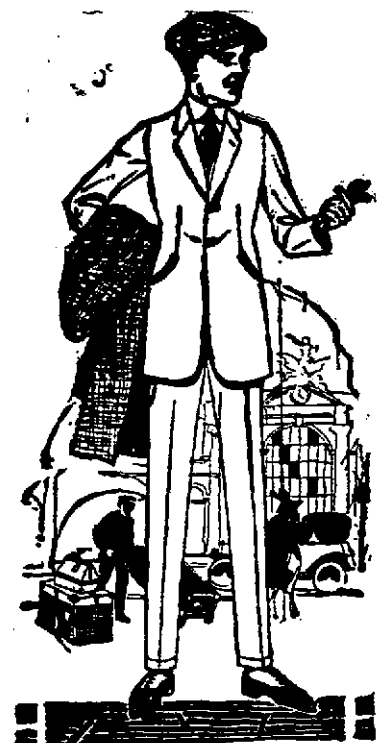

## WOOLTEX Coats and Suits

in spite of fabric scarcity, remain up to the high standards of style and workmanship set for them by the Wooltex designers nearly a quarter of a century ago. You will find in our Wooltex coat and suit showing the garments that will meet with your approval. Plan to purchase this week.

## The War is Not Yet Over. We Will Fight Until It Is Won

When America goes to War, she goes to WAR TO WIN—and we are going to WIN THIS WAR if it takes every Man and every Dollar that we have—but don't make the mistake of thinking that the War is already won to a finality.

The Prussian Beast is torn, tired, and bleeding, but we must not call the war won, until the Prussian Beast has finally surrendered and has fully and completely accepted the entire Fourteen Points as laid down by President Wilson in his speech of January 8th.

Our boys are fighting and they will continue to fight until the final victory is won for humanity and liberty.

But we must do all that we can to help our boys—and it is up to you and to us to help—we must not fail them.

LET US ALL LEND THE WAY THEY FIGHT

west of Lens and four miles west of Douai, the great German base of supplies. They have pressed on beyond La Cateau. Roads running east from this place are congested with enemy traffic in the hasty effort to save all supplies and munitions possible.

The Americans are east of Bazigny and the French are approaching the town from the south.

### Keep in Sight of Germans

Paris, Oct. 11.—The French maintained contact with the retiring Germans throughout the night, according to a statement from the war office today.

Gains were reported in the Champagne region, according to the announcement, and the French lines have been moved forward to within three miles of Bocheville, which has been set on fire by the enemy.

Laon has been practically encircled by allied troops, a number of villages in the vicinity being occupied. The French have advanced far east of St. Quentin, taking several towns.

### At Outskirts of Grand Pre

With the American First Army, Oct. 11.—French troops co-operating with the Americans in the Argonne region, have reached the outskirts of Grand Pre and to the left the French have occupied the railroad station at the edge of Grand Pre.

An important position in the Argonne forest is now controlled by the allies, who hold the most important defenses of this stronghold.

The Americans have occupied another large section of the celebrated Kriemhilde line, which cracked yesterday near Romagne under the continuous artillery fire of the Yankees.

Where You Always Buy For Less

## An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the City to have it Re-bored.

Having recently installed in our shop a new machine for re-boring Ford motors we wish to call your attention to the fact that we are now prepared to re-bore and fit new over-size pistons and rings in your Ford motor.

These are the results you obtain by re-boring

You increase power from 10 to 50 per cent.  
You eliminate that elusive knock.  
You stop the escaping gas around piston rings which abnormally heats the crank case.  
You stop the admission of auxiliary air past the piston rings which dilutes the mixture.  
You use less lubricating oil.  
You use less gasoline.  
You drive slower on high gear.  
You take hills with perfect ease and grace.  
You attain greater speed on level.  
You eliminate the over-heating.  
You stop fouling your plugs.

Our Price is Reasonable.

Bring in your motor and let us fix it up.

## IS IMPORTANT IN THE FILM INDUSTRY

Uncle Sam is Becoming a Factor Because of Constantly Increasing War Pictures

TWO FEATURES BEING SHOWN

Third One, "Under Four Flags" Will Show Co-ordination of Allied Armies in War

New York, Oct. 11.—Uncle Sam is becoming a very important factor in the film industry. The output of war pictures, or pictures that have a direct bearing upon the war, is constantly on the increase. At the present time the Division of Films, of the Committee on Public Information, has two important feature pictures that are being offered to the public. "America's Answer" and "Pershing's Crusaders" both tell the story of America's participation in the World War. "America's Answer" which has been shown in the larger cities under the immediate di-

rection of the Government, will be released to the smaller motion picture houses on October 28, and the demand for it has, it is announced, been phenomenal. A very interesting thing in connection with this stirring official war picture is the fact that in many cities all the movie theatres will exhibit it simultaneously. A remarkable instance of this patriotic exploitation of the picture is Patterson, N. J., where eleven houses—all there are in the city—have arranged to play the picture on the same late. The same unanimity is reported from many other cities. "It is probable that "America's Answer", which is being distributed by the World Film Corporation, will be seen by more people than has ever before been attracted by a moving picture.

The third big feature war picture, "Under Four Flags", will be issued by the U. S. Division of Films in November. Owing to the co-operation of the allies in the recent intensive drives, the new picture will not be confined exclusively to the American armies, but will include the activities of the British, French, and Italians, showing how the efforts of the allies, under the masterful direction of General Foch, have become co-ordinated. This picture will show more of the actual fighting on the several

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 40c and 25c a box. All druggists.

fronts than its predecessors and is expected to prove a thrilling addition to the pictorial history of the war.

The educational pictures of the war which the Division of Films is issued from time to time, have been very effective in stimulating industrial interest in the war. "Our Bridge of Ships", a two reel feature, which shows how America's army of shipbuilders is breaking all world records in the construction of transport, cargo and war vessels, is a revelation, especially to those who have been discouraged by the seeming delay of this vital Government industry in getting its stride. The picture shows the ships on the way, the busy lives of workers, the launchings, and finally the ships in service. It has been called an epic in shipbuilding.

The U. S. Official War Review, familiarized in the moving picture houses, continues to be one of the splendid agencies of the Government in keeping the public in touch with the war. The Division of Films is also issuing a number of one and two reel pictures that have special value in the war effort.

coal; another, what the American Indian is doing in the war; still another has a special appeal to the colored population, and shows how the negro has been trained to do his part in the war. There will, it is announced, be a series of twelve of these special educational pictures. The scenario department of the Division of Films is also furnishing stories for a number of films that are proving to be very helpful and stimulating. One is "The Psychology of Song", showing how the Government seeks to turn every soldier and sailor into a vocalist, and in this way keep up his spirits and morale. Another is "A Girl's A Man For A That", in which girls are shown running elevators, street cars and trucks, gathering crops, making aeroplanes and ammunition, and many other things that the scarcity of man-power has made imperative. A third picture is entitled "I'll Help Every Willing Worker Get a Job." Its title explains its purpose. "Taking the Terror Out of War" illustrates the Government system of war insurance, which has proved so successful with the soldier boys.

"Solving the Farm Problem of the Nation," the first of three pictures made by Pathe from a scenario furnished by the Division of Films, shows how the boys have been trained to take the places of the older workers on the farms. The second picture in the series, "Feeding the Fighters", shows where the food for

## HERE'S WARMING, SOOTHING RELIEF FROM YOUR RHEUMATIC ACHES

For prompt relief from Rheumatism, Neuralgia, or Lumbago, you can depend on Sloan's Liniment. The warming, soothing, counter-irritant effect is the quickest way to overcome the inflammation, swelling or stiffness. A few drops go right to the sore part, draw the blood from the congested place and remove the cause of the ache. The great penetrating power of Sloan's Liniment makes rubbing needless. It is easier and cleaner to use than plasters or poultices. It does not stain the skin or clog the pores. A bottle of Sloan's Liniment is all you need for quick rest and relief from the pains of sprains, bruises, backache, stiffness, and most forms of rheumatic twinges. Generous size bottles at druggists everywhere.

30c, 60c, \$1.20

the great armies in France is coming from, and the third in the series, "Making Man Power", will give an insight into the most important labor operations now being carried on, and the industrial problems that have confronted the Government. From all of which it will be seen that, as a motion picture maker and impressario, Uncle Sam is forging to the front rank.

Ten shipyards employ more than 500,000 workers

## BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney-flushing any time.

Swine committee, which continues an assurance of a minimum of \$15.50 per hundred for packers' drives at Chicago, for hogs farrowed this fall. In other words the owners of the five million hogs in Indiana are assured of the government's support of the policy that heretofore has maintained a minimum price of 15 cents per pound for pork. It is expected as a consequence that there will be a further stimulation of the pork production in Indiana, which is estimated to have increased twenty per cent in 1918 over the previous year's record. Advice from Washington state that Herbert Hoover, federal food administrator in a letter addressed to Governor Stuart, chairman of the Swine committee, explains the policy of the food administration fully. The import of the letter is that there should be no understanding that the food administration makes an absolute guarantee of a \$15.50 per 100 pounds price. It simply indicates the intention and policy of those in charge of the food situation, to assure the farmer justice as to price return, while asking him for a still further intensive effort to increase the world's food supply by producing more hogs than ever before.

In making its recommendations to the administration, the committee urged that the influence of controlled orders for the army, navy, export and allied requirements be applied to absorb surplus production and to prevent disaster to the producer in the event extremely high prices should curtail consumption at home and abroad to a point where the absence of a price stabilizer might be fatal. On the other hand greatly increased costs of production makes it imperative that the farmer be guaranteed a fair return, in the face of a possible collapse of the market.

State Council Of Defense Appeals To Retailers To Conform To National Body's Program

## ENLISTS PUBLIC'S SUPPORT

People Asked To Anticipate Holiday Purchases And Make Them This Month And Next.

Through the Merchants Economy Committee, the Indiana State Council of Defense is appealing to the retailers of Indiana to conform to the program of the Council of National Defense, which calls for a complete modification of the usual trade customs incident in the educational campaign by means of which the fullest sympathy and support of the buying public will be enlisted, in order that there will be no undue hardship in the execution of the program.

Merchants are pledged through the Economy committee to engage no additional help during what is known as the "Christmas rush". They also agree to observe the customary hours for trading, thus saving fuel and man-power to say nothing of the saving of woman-power which heretofore has been subject to severe trials by thoughtless shoppers.

In return for the concession by merchants the public generally will be asked to anticipate holiday purchases and make them during October and November. The purchases of gifts is to be restricted as nearly as possible to useful articles, but toys are not prohibited. Wherever possible purchasers are asked to carry their own packages and under no circumstances to ask special concessions in the way of approvals and charges, which might serve to defeat the effort of the merchant to comply fully with the letter and spirit of the government request.

Special advertising matter is being prepared for distribution to retailers by the Merchants committee pointing out to the buying public the high points of the modified program and emphasizing the patriotism involved in complying strictly with the wishes of the Council of National Defense. This will supplement the educational efforts that the county council of defense and the retailers with whom they are pledged to co-operate will make in the request of the state council.

## Feeble Old People Vinol is What You Need

because it contains the very elements needed to replace weakness with strength, viz: Beef and Cod Liver Peptones, Iron and Manganese Peptonates, and Glycero-phosphates, with a mild tonic wine. This is a splendid combination to restore strength, vitality and vigor. It has given ninety percent satisfaction for sixteen years. **HERE IS PROOF:**

**Melrose, N.Y.**  
"I am 84 years of age and got into a feeble, weak and nervous condition so I could not sleep. Vinol has not only built up my strength but it has given me a good appetite and I sleep all right now. Without doubt Vinol is the greatest strengthener for old people obtainable."  
—Mrs. S. B. Wells.

**Winchester, Va.**  
"I am a farmer's wife, 75 years of age, and pneumonia left me in a weak, run-down condition, so I could hardly keep about and do my work. A neighbor brought me Vinol and it has built up my strength so fast that I think it is the best medicine I have ever taken."  
—Mrs. Jennie Chapman.

**DATUS E. HOLLOWELL**

DUSTY MILLER Auctioneer. B. B. BENNER, Clerk. Lunch served by the Raleigh Christian Church.

**BUY LIBERTY BONDS**

Helped Government by converting LEATHER into Liberty Bonds.

## Live Stock Sale

At The CULLEN FARM, 1½ miles west of Rushville,, Indiana, on

**Wednesday, Oct. 23rd, 1918**

**150 PURE-BRED Duroc Hogs 150**

**125 Gilts and 25 Spring Boars**

In making this offering we feel a pardonable pride and believe you will bear us out in the statement that this is one of the best ever sold from this farm. They are a uniform lot throughout, rich in some of the best and most popular blood of the breed, have lots of size and quality and have been grown in a way to give them plenty of bone and muscle—the kind to keep getting better and produce results. Do not let this opportunity pass by and if they meet your approval make your selections, and if you will permit a suggestion—buy them regardless of price for there was never a time when a good sow or boar would make more money than now. **ALL DOUBLE IMMUNED.**

**20 HEAD OF CATTLE 20**

Two yearling POLLED SHORTHORN BULLS, one Roan, one Red, sired by a ten-bull and out of excellent cows. 10 GRADE COWS with first calves by their side, ready to wean. A lot of good milkers.

**4 Head of Horses 4**

2 Chestnut Three-year-old Geldings, 1 Bay Three-year-old Gelding, well broken and excellent workers; 1 Two-year-old Chestnut Gelding. These were all raised on the farm, sired by our own stallion, out of good mares, and will mature 1600 pounds or better. We are selling these for lack of room and will make someone good money to feed till spring.

**1 MCCORMICK BINDER IN GOOD CONDITION**

**TERMS**—A credit of six months without interest will be given, purchaser executing approved bankable note. 3 per cent off for cash. Settlement to be made before removal of property.

**SALE TO BEGIN AT 10:00 SHARP.**

**UNDER TENT RAIN OR SHINE.**

Lunch will be served on the grounds by the Phasana Ridge Epworth League and Church.

**DR. J. C. SEXTON**

**WILL E. BROWN**

LUMBER

We have been successful in getting in a large stock of all dimensions, shiplap and all other building materials this summer, therefore we will not be handicapped by the embargo that has just been placed on shipments of lumber from the mills.

Remember, we have a good line of 8, 10 and 12 inch boards, shiplap, for general purposes, such as on barns, and 2x4's, 2x6's, etc.

Telephone Your Ads

This page is read eagerly by over 5,000 readers daily. It is invaluable for merchants, farmers, professional men and all progressive people.

**OUR RULES**

All Advertisements, except display, are charged for at the rate of one-half cent per word for each insertion. The same ad will be placed in the Indianapolis Star and Daily Republican at the combined rate of one and one-half cent per word.

We earnestly solicit these advertisements by telephone and expect payment when the collector calls. Ads mailed to should be accompanied by the remittance, as the amount is generally too small to justify bookkeeping.

Cards of Thanks and Obituaries are charged for at the same rate, minimum 25 cents. No charge accounts opened.

**CLASSIFIED ADVERTISEMENTS ARE NOT TAKEN AFTER 10:00 A. M. FOR PUBLICATION ON THE SAME DAY.**

Don't suffer another day with catarrh; the disease is dangerous and often ends in consumption. Start the Ilyomei treatment today. No stomach dosing, no sprays or douches; just breathe it—that's all. Ask Johnson's Drug Store—(Adv.) 7

Washington, Oct. 10.—Public officials, veterinarians and stock owners should be on guard to report immediately any cases of foot-and-mouth disease that may appear in this country, according to a statement by Dr. J. H. Mohler, Chief of the Bureau of Animal Industry, U. S. Department of Agriculture. Dr. Mohler said:

**FOR THROAT AND LUNGS**

A Calcium compound that will bring relief in most acute and chronic cases. Provides in handy form, a basic remedy highly recommended by science. Contains no harmful drugs. Try them today.

**50 cents a box, including war tax**

For sale by all druggists  
Eaton's Laboratory Philadelphia

"It is of the greatest importance that a sharp watch be maintained by all officials by practicing veterinarians, and by stock owners in order that the very first cases may be discovered and the spread of the disease prevented. It would be a great misfortune to the United States if foot-and-mouth disease should occur under present conditions or become firmly established in the country, as has been the case in many of the stock-raising nations of Continental Europe. Early discovery of the disease, followed by prompt elimination of infected centers, is the only way to prevent the United States from becoming permanently infected."

40 brood sows, mostly Durocs, and twenty of which have pigs by side or due to farrow by day of sale; 2 two-year-old Duroc male hogs; the remaining number are shoats ranging in weight from forty to one hundred and seventy-five pounds.

**TERMS WILL BE MADE KNOWN ON DAY OF SALE.**
